

PROACT FACT SHEET

An Environmental Resource sponsored by HQ Air Force Center for Environmental Excellence

Air Force Environmental Governing Documents

In October 1996, PROACT first published the *Air Force Environmental Governing Documents* Fact Sheet in response to the numerous requests we receive from installation environmental personnel for a useful compilation of environmental references. This fact sheet provides a summary of environmental references grouped by compliance category as presented in the Air Force Environmental, Safety, and Occupational Health Compliance Assessment and Management Program (ESOH CAMP), a supplement to The Environmental Assessment and Management (TEAM) Guide. This has always been one of PROACT's most popular fact sheets since it encompasses a broad range of Air Force environmental regulations. This version of *Air Force Environmental Governing Documents* contains references obtained from the revised June December 2004 ECAMP Supplement and includes references to the statutes that form the underlying basis for the regulations, policies, and guidance documents.

The contents of this fact sheet are not all-inclusive; yet, list all laws, regulations, executive orders, policy documents, and guidance pertinent to each environmental category. Specific questions on the application and interpretation of any governing document listed below may be directed to PROACT and **should be verified** with MAJCOM Environmental Engineering staff and/or the Office of the Judge Advocate. If you need additional information or assistance in obtaining the documents provided herein, please contact PROACT at DSN 240-4240 or <http://www.afcee.brooks.af.mil/pro-act/>.
